PREFACE

This volume constitutes the first revision and codification of the general ordinances of Glasgow, Virginia since 1952. It contains the Charter and such of the ordinances of a general and permanent nature passed on or before June 6, 1972, as were found desirable for retention, except those expressly saved from repeal by the Adopting Ordinance.

The ordinances were codified, edited and indexed by the Editorial Staff of Michie City Publications Company under the supervision of Chas. W. Sublett, Stephen C. Willard and John K. Haley.

The publishers wish to express their appreciation for the cooperation of all the town officials and employees during the preparation of this publication. Particular acknowledgment is due Mr. Henry J. Foresman, Town Attorney, for his assistance during the progress of the work.

A feature to which the attention of the user is directed is the arrangement of the chapters in alphabetical order. Attention is also directed to the analysis preceding each chapter which, in many instances, will serve as an index within itself. The general index, carried at the end of the Code, has been carefully prepared, and should serve as an accurate medium for locating the individual sections of law within the Code. In the footnotes appearing throughout the Code will be found references to the Charter and applicable and related provisions of state law. Those notes also contain cross references to other and related provisions in the Town Code itself. By reference to the historical citations, appearing at the end of each section, the user will be able to ascertain the ordinance from which the present section has been derived.

It is a recognized fact that if any Code is to accomplish its intended purpose it must be kept up to date by means of an adequate supplemental service. Accordingly, the publishers point out the advisability and necessity of keeping this Code current.

The new Town Code is presented to the officials and citizens of Glasgow, Virginia in the belief that it will merit their approval.

- [§ 9-11.](#) Rulings.
- [§ 9-12.](#) Proration of license taxes.
- [§ 9-13.](#) License not transferable.

Sec. 9-1. License Requirement.

Every person shall apply for a license for each business or profession when engaging in a business in this jurisdiction if (i) the person has a definite place of business in this jurisdiction; (ii) there is no definite place of business anywhere and the person resides in this jurisdiction; or (iii) there is no definite place of business in this jurisdiction but the person operates amusement machines or is classified as an itinerant merchant, peddler, carnival, circus, contractor subject to § [58.1-3715](#), or public service corporation. A separate license shall be required for each definite place of business and for each business. A person engaged in two or more businesses or professions carried on at the same place of business may elect to obtain one license for all such businesses and professions if all of the following criteria are satisfied: (a) each business or profession is subject to licensure at the location and has satisfied any requirements imposed by state law or other provisions of the ordinances of this jurisdiction; (b) all of the businesses or professions are subject to the same tax rate, or, if subject to different tax rates, the licensee agrees to be taxed on all businesses and professions at the highest rate; and (c) the taxpayer agrees to supply such information as the assessor may require concerning the nature of the several businesses and their gross receipts.

Sec. 9-2. Due dates and penalties.

- a. Each person subject to a license tax shall apply for a license prior to beginning business if he was not subject to licensure in this jurisdiction on or before January 1 of the license year, or no later than March 1 of the license year if he had been issued a license for the preceding year. The application shall be on forms prescribed by the assessing official.
- b. The tax shall be paid with the application in the case of any license not based on gross receipts. If the tax is measured by the gross receipts of the business, the tax shall be paid on or before May 1 of the license year.
- c. The assessing official may grant an extension of time in which to file an application for a license, for reasonable cause. The extension may be conditioned upon the timely payment of a reasonable estimate of the appropriate tax; the tax is then subject to adjustment to the correct tax at the end of the extension, together with interest from the due date until the date paid and, if the estimate submitted with the extension is found to be unreasonable under the circumstances, with a penalty of 10 percent of the portion paid after the due date.
- d. A penalty of 10 percent of the tax may be imposed upon the failure to file an application or the failure to pay the tax by the appropriate due date. Only the late filing penalty shall be imposed by the assessing official if both the application and payment are late; however, both penalties may be assessed if the assessing official determines that the taxpayer has a history of noncompliance. In the case of an assessment

of additional tax made by the assessing official, if the application and, if applicable, the return were made in good faith and the understatement of the tax was not due to any fraud, reckless or intentional disregard of the law by the taxpayer, there shall be no late payment penalty assessed with the additional tax. If any assessment of tax by the assessing official is not paid within 30 days, the treasurer or other collecting official may impose a 10 percent late payment penalty. If the failure to file or pay was not the fault of the taxpayer, the penalties shall not be imposed, or if imposed, shall be abated by the official who assessed them. In order to demonstrate lack of fault, the taxpayer must show that he acted responsibly and that the failure was due to events beyond his control.

"Acted responsibly" means that: (i) the taxpayer exercised the level of reasonable care that a prudent person would exercise under the circumstances in determining the filing obligations for the business and (ii) the taxpayer undertook significant steps to avoid or mitigate the failure, such as requesting appropriate extensions (where applicable), attempting to prevent a foreseeable impediment, acting to remove an impediment once it occurred, and promptly rectifying a failure once the impediment was removed or the failure discovered.

"Events beyond the taxpayer's control" include, but are not limited to, the unavailability of records due to fire or other casualty; the unavoidable absence (e.g., due to death or serious illness) of the person with the sole responsibility for tax compliance; or the taxpayer's reasonable reliance in good faith upon erroneous written information from the assessing official who was aware of the relevant facts relating to the taxpayer's business when he provided the erroneous information.

e. Interest shall be charged at a rate of 10% per year on the late payment of the tax from the due date until the date paid without regard to fault or other reason for the late payment. Whenever an assessment of additional or omitted tax by the assessing official is found to be erroneous, all interest and any penalties charged and collected on the amount of the assessment found to be erroneous shall be refunded together with interest on the refund from the date of payment or the due date, whichever is later. Interest shall be paid on the refund of any BPOL tax from the date of payment or due date, whichever is later, whether attributable to an amended return or other reason. Interest on any refund shall be paid at the same rate charged under § [58.1-3916](#).

No interest shall accrue on an adjustment of estimated tax liability to actual liability at the conclusion of a base year. No interest shall be paid on a refund or charged on a late payment, provided the refund or the late payment is made not more than 30 days from the date of the payment that created the refund or the due date of the tax, whichever is later.

Sec. 9-3. Term of License

All business and professional licenses shall expire on the thirty-first day of December of the year in which such license shall be Issued.

Sec. 9-4. Tax Rates

All persons required to obtain a license as described in section 9-1, shall pay a license tax as follows:

Unless specifically excepted by statute, no license tax collected by the town shall be greater than thirty dollars (flat fee) or the rate set forth below for the class of enterprise listed, whichever is higher:

1. For contracting and persons constructing for their own account for sale - ten cents per one hundred dollars of gross receipts;
2. For retail sales - thirteen cents per one hundred dollars of gross receipts;
3. For financial, real estate, and professional services –thirty-eight cents per one hundred dollars of gross receipts;
4. For repair, personal and business services, and all other businesses and occupations not specifically listed or excepted above – twenty-three cents per one hundred dollars of gross receipts.

The rate limitations prescribed in this section shall not be applicable to license taxes on wholesalers, public service companies, carnivals or fortune tellers, since these enterprises are licensed in accordance with other statutes.

Sec. 9-5. Issuance; form of license.

The town treasurer shall issue all business and professional licenses upon application and the payment in full of the required license tax, and such license shall be in the form of a receipt issued in the name of the person making application for such license.

Sec. 9-6 Situs of gross receipts.

a. General rule. Whenever the tax imposed by this ordinance is measured by gross receipts, the gross receipts included in the taxable measure shall be only those gross receipts attributed to the exercise of a privilege subject to licensure at a definite place of business within this jurisdiction. In the case of activities conducted outside of a definite place of business, such as during a visit to a customer location, the gross receipts shall be attributed to the definite place of business from which such activities are initiated, directed, or controlled. The situs of gross receipts for different classifications of business shall be attributed to one or more definite places of business or offices as follows:

(1) The gross receipts of a contractor shall be attributed to the definite place of business at which his services are performed, or if his services are not performed at any definite place of business, then the definite place of business from which his services are directed or controlled, unless the contractor is subject to the provisions of § [58.1-3715](#);

(2) The gross receipts of a retailer or wholesaler shall be attributed to the definite place of business at which sales solicitation activities occur, or if sales solicitation activities do not occur at any definite place of business, then the definite place of business from which sales solicitation activities are directed or controlled; however, a wholesaler or distribution house subject to a license tax measured by purchases shall determine the situs of its purchases by the definite place of business at which or from which deliveries of the purchased goods, wares and merchandise are made to customers. Any wholesaler who is subject to license tax in two or more localities and who is subject to multiple taxation because the localities use different measures, may apply to the Department of Taxation for a determination as to the proper measure of purchases and gross receipts subject to license tax in each locality;

(3) The gross receipts of a business renting tangible personal property shall be attributed to the definite place of business from which the tangible personal property is rented or, if the property is not rented from any definite place of business, then to the definite place of business at which the rental of such property is managed; and

(4) The gross receipts from the performance of services shall be attributed to the definite place of business at which the services are performed or, if not performed at any definite place of business, then to the definite place of business from which the services are directed or controlled.

b. Apportionment. If the licensee has more than one definite place of business and it is impractical or impossible to determine to which definite place of business gross receipts should be attributed under the general rule, the gross receipts of the business shall be apportioned between the definite places of businesses on the basis of payroll. Gross receipts shall not be apportioned to a definite place of business unless some activities under the applicable general rule occurred at, or were controlled from, such definite place of business. Gross receipts attributable to a definite place of business in another jurisdiction shall not be attributed to this jurisdiction solely because the other jurisdiction does not impose a tax on the gross receipts attributable to the definite place of business in such other jurisdiction.

c. Agreements. The assessor may enter into agreements with any other political subdivision of Virginia concerning the manner in which gross receipts shall be apportioned among definite places of business. However, the sum of the gross receipts apportioned by the agreement shall not exceed the total gross receipts attributable to all of the definite places of business affected by the agreement. Upon being notified by a taxpayer that its method of attributing gross receipts is fundamentally inconsistent with the method of one or more political subdivisions in which the taxpayer is licensed to engage in business and that the difference has, or is likely to, result in taxes on more than 100 percent of its gross receipts from all

locations in the affected jurisdictions, the assessor shall make a good faith effort to reach an apportionment agreement with the other political subdivisions involved. If an agreement cannot be reached, either the assessor or taxpayer may seek an advisory opinion from the Department of Taxation pursuant to § [58.1-3701](#); notice of the request shall be given to the other party. Notwithstanding the provisions of § [58.1-3993](#), when a taxpayer has demonstrated to a court that two or more political subdivisions of Virginia have assessed taxes on gross receipts that may create a double assessment within the meaning of § [58.1-3986](#), the court shall enter such orders pending resolution of the litigation as may be necessary to ensure that the taxpayer is not required to pay multiple assessments even though it is not then known which assessment is correct and which is erroneous.

Sec. 9-7 Limitations and extensions.

- a. Where, before the expiration of the time prescribed for the assessment of any license tax imposed pursuant to this ordinance, both the assessing official and the taxpayer have consented in writing to its assessment after such time, the tax may be assessed at any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.
- b. Notwithstanding § [58.1-3903](#), the assessing official shall assess the local license tax omitted because of fraud or failure to apply for a license for the current license year and the six preceding license years.
- c. The period for collecting any local license tax shall not expire prior to the period specified in § [58.1-3940](#), two years after the date of assessment if the period for assessment has been extended pursuant to this subdivision of the ordinance, two years after the final determination of an appeal for which collection has been stayed pursuant to subdivision 5 b or 5 d of this ordinance, or two years after the final decision in a court application pursuant to § [58.1-3984](#) or a similar law for which collection has been stayed, whichever is later.

Sec. 9-8 Administrative appeals to assessing official.

a. Definitions. For purposes of this section:

"Amount in dispute," when used with respect to taxes due or assessed, means the amount specifically identified in the administrative appeal or application for judicial review as disputed by the party filing such appeal or application.

"Appealable event" means an increase in the assessment of a local license tax payable by a taxpayer, the denial of a refund, or the assessment of a local license tax where none previously was assessed, arising out of the local assessing official's (i) examination of records, financial statements, books of account, or other information for the purpose of determining the correctness of an assessment; (ii) determination regarding the rate or classification applicable to the licensable business; (iii) assessment of a local license tax when no return has been filed by the taxpayer; or (iv) denial of an application for correction of erroneous assessment attendant to the filing of an amended application for license.

"Frivolous" means a finding, based on specific facts, that the party asserting the appeal is unlikely to prevail upon the merits because the appeal is (i) not well grounded in fact; (ii) not warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; (iii) interposed for an improper purpose, such as to harass, to cause unnecessary delay in the payment of tax or a refund, or to create needless cost from the litigation; or (iv) otherwise frivolous.

"Jeopardized by delay" means a finding, based upon specific facts, that a taxpayer designs to (i) depart quickly from the locality; (ii) remove his property therefrom; (iii) conceal himself or his property therein; or (iv) do any other act tending to prejudice, or to render wholly or partially ineffectual, proceedings to collect the tax for the period in question.

b. Filing and contents of administrative appeal. Any person assessed with a local license tax as a result of an appealable event as defined in this section may file an administrative appeal of the assessment within one year from the last day of the tax year for which such assessment is made, or within one year from the date of the appealable event, whichever is later, with the local assessing official. The appeal must be filed in good faith and sufficiently identify the taxpayer, the tax periods covered by the challenged assessments, the amount in dispute, the remedy sought, each alleged error in the assessment, the grounds upon which the taxpayer relies, and any other facts relevant to the taxpayer's contention. The assessor may hold a conference with the taxpayer if requested by the taxpayer, or require submission of additional information

and documents, an audit or further audit, or other evidence deemed necessary for a proper and equitable determination of the appeal. The assessment placed at issue in the appeal shall be deemed prima facie correct. The assessor shall undertake a full review of the taxpayer's claims and issue a written determination to the taxpayer setting forth the facts and arguments in support of his decision.

c. Notice of right of appeal and procedures. Every assessment made by an assessing official pursuant to an appealable event shall include or be accompanied by a written explanation of the taxpayer's right to file an administrative appeal and the specific procedures to be followed in the jurisdiction, the name and address to which the appeal should be directed, an explanation of the required content of the appeal, and the deadline for filing the appeal.

d. Suspension of collection activity during appeal. Provided a timely and complete administrative appeal is filed, collection activity with respect to the amount in dispute shall be suspended until a final determination is issued by the assessing official, unless the treasurer or other official responsible for the collection of such tax (i) determines that collection would be jeopardized by delay as defined in this section; (ii) is advised by the assessing official that the taxpayer has not responded to a request for relevant information after a reasonable time; or (iii) is advised by the assessing official that the appeal is frivolous as defined in this section. Interest shall accrue in accordance with the provisions of subdivision 2 e of this subsection, but no further penalty shall be imposed while collection action is suspended.

e. Procedure in event of nondecision. Any taxpayer whose administrative appeal to the assessing official pursuant to the provisions of subdivision 5 of this subsection has been pending for more than one year without the issuance of a final determination may, upon not less than 30 days' written notice to the assessing official, elect to treat the appeal as denied and appeal the assessment to the Tax Commissioner in accordance with the provisions of subdivision 6 of this subsection. The Tax Commissioner shall not consider an appeal filed pursuant to the provisions of this subsection if he finds that the absence of a final determination on the part of the assessing official was caused by the willful failure or refusal of the taxpayer to provide information requested and reasonably needed by the assessing official to make his determination.

Sec. 9-9 Administrative appeal to the Tax Commissioner.

a. Any person assessed with a local license tax as a result of a determination, upon an administrative appeal to the assessing official pursuant to subdivision 5 of this subsection, that is adverse to the position asserted by the taxpayer in such appeal may appeal such assessment to the Tax Commissioner within 90 days of the date of the determination by the commissioner of the revenue or other assessing official. The appeal shall be in such form as the Tax Commissioner may prescribe and the taxpayer shall serve a copy of the appeal upon the commissioner of the revenue or other assessing official. The Tax Commissioner shall permit the assessing official to participate in the proceedings, and shall issue a determination to the taxpayer within 90 days of receipt of the taxpayer's application, unless the taxpayer and the assessing official are notified that a longer period will be required. The appeal shall proceed in the same manner as an application pursuant to § [58.1-1821](#), and the Tax Commissioner may issue an order correcting such assessment pursuant to § [58.1-1822](#).

b. Suspension of collection activity during appeal. On receipt of a notice of intent to file an appeal to the Tax Commissioner under subdivision 6 a of this subsection, collection activity with respect to the amount in dispute shall be suspended until a final determination is issued by the Tax Commissioner, unless the treasurer or other official responsible for the collection of such tax (i) determines that collection would be jeopardized by delay as defined in this section; (ii) is advised by the commissioner of the revenue or other assessing official, or the Tax Commissioner, that the taxpayer has not responded to a request for relevant information after a reasonable time; or (iii) is advised by the commissioner of the revenue or other assessing official that the appeal is frivolous as defined in this section. Interest shall accrue in accordance with the provisions of subdivision 2 e of this subsection, but no further penalty shall be imposed while collection action is suspended. The requirement that collection activity be suspended shall cease unless an appeal pursuant to subdivision 6 a of this subsection is filed and served on the necessary parties within 30 days of the service of notice of intent to file such appeal.

c. Implementation of determination of Tax Commissioner. Promptly upon receipt of the final determination of the Tax Commissioner with respect to an appeal pursuant to subdivision 6 a of this subsection, the commissioner of the revenue or other assessing official shall take those steps necessary to calculate the amount of tax owed by or refund due to the taxpayer consistent with the Tax Commissioner's determination

and shall provide that information to the taxpayer and to the treasurer or other official responsible for collection in accordance with the provisions of this subdivision.

(1) If the determination of the Tax Commissioner sets forth a specific amount of tax due, the commissioner of the revenue or other assessing official shall certify the amount to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a bill to the taxpayer for such amount due, together with interest accrued and penalty, if any is authorized by this section, within 30 days of the date of the determination of the Tax Commissioner.

(2) If the determination of the Tax Commissioner sets forth a specific amount of refund due, the commissioner of the revenue or other assessing official shall certify the amount to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a payment to the taxpayer for such amount due, together with interest accrued pursuant to this section, within 30 days of the date of the determination of the Tax Commissioner.

(3) If the determination of the Tax Commissioner does not set forth a specific amount of tax due, or otherwise requires the commissioner of the revenue or other assessing official to undertake a new or revised assessment that will result in an obligation to pay a tax that has not previously been paid in full, the commissioner of the revenue or other assessing official shall promptly commence the steps necessary to undertake such new or revised assessment, and provide the same to the taxpayer within 60 days of the date of the determination of the Tax Commissioner, or within 60 days after receipt from the taxpayer of any additional information requested or reasonably required under the determination of the Tax Commissioner, whichever is later. The commissioner of the revenue or other assessing official shall certify the new assessment to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a bill to the taxpayer for the amount due, together with interest accrued and penalty, if any is authorized by this section, within 30 days of the date of the new assessment.

(4) If the determination of the Tax Commissioner does not set forth a specific amount of refund due, or otherwise requires the commissioner of the revenue or other assessing official to undertake a new or revised assessment that will result in an obligation on the part of the locality to make a refund of taxes previously paid, the commissioner of the revenue or other assessing official shall promptly commence the steps necessary to undertake such new or revised assessment, and provide the same to the taxpayer within 60 days of the date of the determination of the Tax Commissioner, or within 60 days after receipt from the taxpayer of any additional information requested or reasonably required under the determination of the Tax Commissioner, whichever is later. The commissioner of the revenue or other assessing official shall certify the new assessment to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a refund to the taxpayer for the amount of tax due, together with interest accrued, within 30 days of the date of the new assessment.

Sec. 9-10 Judicial review of determination of Tax Commissioner.

a. Judicial review. Following the issuance of a final determination of the Tax Commissioner pursuant to subdivision 6 a of this subsection, the taxpayer or commissioner of the revenue or other assessing official may apply to the appropriate circuit court for judicial review of the determination, or any part thereof, pursuant to § [58.1-3984](#). In any such proceeding for judicial review of a determination of the Tax Commissioner, the burden shall be on the party challenging the determination of the Tax Commissioner, or any part thereof, to show that the ruling of the Tax Commissioner is erroneous with respect to the part challenged. Neither the Tax Commissioner nor the Department of Taxation shall be made a party to an application to correct an assessment merely because the Tax Commissioner has ruled on it.

b. Suspension of payment of disputed amount of tax due upon taxpayer's notice of intent to initiate judicial review.

(1) On receipt of a notice of intent to file an application for judicial review, pursuant to § [58.1-3984](#), of a determination of the Tax Commissioner pursuant to subdivision 6 a of this subsection, and upon payment of the amount of the tax that is not in dispute together with any penalty and interest then due with respect to such undisputed portion of the tax, the treasurer or other collection official shall further suspend collection activity while the court retains jurisdiction unless the court, upon appropriate motion after notice and an opportunity to be heard, determines that (i) the taxpayer's application for judicial review is frivolous, as defined in this section; (ii) collection would be jeopardized by delay, as defined in this section; or (iii) suspension of collection would cause substantial economic hardship to the locality. For purposes of determining whether substantial economic hardship to the locality would arise from a suspension of

collection activity, the court shall consider the cumulative effect of then-pending appeals filed within the locality by different taxpayers that allege common claims or theories of relief.

(2) Upon a determination that the appeal is frivolous, that collection may be jeopardized by delay, or that suspension of collection would result in substantial economic hardship to the locality, the court may require the taxpayer to pay the amount in dispute or a portion thereof, or to provide surety for payment of the amount in dispute in a form acceptable to the court.

(3) No suspension of collection activity shall be required if the application for judicial review fails to identify with particularity the amount in dispute.

(4) The requirement that collection activity be suspended shall cease unless an application for judicial review pursuant to § [58.1-3984](#) is filed and served on the necessary parties within 30 days of the service of the notice of intent to file such application.

(5) The suspension of collection activity authorized by this subdivision shall not be applicable to any appeal of a local license tax that is initiated by the direct filing of an action pursuant to § [58.1-3984](#) without prior exhaustion of the appeals provided by subdivisions 5 and 6 of this subsection.

c. Suspension of payment of disputed amount of refund due upon locality's notice of intent to initiate judicial review.

(1) Payment of any refund determined to be due pursuant to the determination of the Tax Commissioner of an appeal pursuant to subdivision 6 a of this subsection shall be suspended if the locality assessing the tax serves upon the taxpayer, within 60 days of the date of the determination of the Tax Commissioner, a notice of intent to file an application for judicial review of the Tax Commissioner's determination pursuant to § [58.1-3984](#) and pays the amount of the refund not in dispute, including tax and accrued interest. Payment of such refund shall remain suspended while the court retains jurisdiction unless the court, upon appropriate motion after notice and an opportunity to be heard, determines that the locality's application for judicial review is frivolous, as defined in this section.

(2) No suspension of refund activity shall be permitted if the locality's application for judicial review fails to identify with particularity the amount in dispute.

(3) The suspension of the obligation to make a refund shall cease unless an application for judicial review pursuant to § [58.1-3984](#) is filed and served on the necessary parties within 30 days of the service of the notice of intent to file such application.

d. Accrual of interest on unpaid amount of tax. Interest shall accrue in accordance with the provisions of subdivision 2 e of this subsection, but no further penalty shall be imposed while collection action is suspended.

Sec. 9-11 Rulings.

Any taxpayer or authorized representative of a taxpayer may request a written ruling regarding the application of a local license tax to a specific situation from the commissioner of the revenue or other assessing official. Any person requesting such a ruling must provide all facts relevant to the situation placed at issue and may present a rationale for the basis of an interpretation of the law most favorable to the taxpayer. Any misrepresentation or change in the applicable law or the factual situation as presented in the ruling request shall invalidate any such ruling issued. A written ruling may be revoked or amended prospectively if (i) there is a change in the law, a court decision, or the guidelines issued by the Department of Taxation upon which the ruling was based or (ii) the assessor notifies the taxpayer of a change in the policy or interpretation upon which the ruling was based. However, any person who acts on a written ruling which later becomes invalid shall be deemed to have acted in good faith during the period in which such ruling was in effect.

9. Record-keeping and audits. Every person who is assessable with a local license tax shall keep sufficient records to enable the assessor to verify the correctness of the tax paid for the license years assessable and to enable the assessor to ascertain what is the correct amount of tax that was assessable for each of those years. All such records, books of accounts and other information shall be open to inspection and examination by the assessor in order to allow the assessor to establish whether a particular receipt is directly attributable to the taxable privilege exercised within this jurisdiction. The assessor shall provide the taxpayer with the option to conduct the audit in the taxpayer's local business office, if the records are maintained there. In the event the records are maintained outside this jurisdiction, copies of the appropriate books and records shall be sent to the assessor's office upon demand.

Sec. 9-12 Proration of license taxes.

The business and professional license taxes enumerated in this article shall not be prorated in the event that such license shall be issued subsequent to the thirty-first day of January of any year. In the event that a business permanently ceases to operate within the town the taxpayer shall be entitled, upon application, to a refund for that portion of the license tax already paid, prorated on a monthly basis so as to ensure that the licensed privilege is taxed only for that fraction of the year during which it is exercised within the town. No refund of any portion of the flat fee will be made.

Sec. 9-13 License not transferable.

No business and professional license issued by the town shall be transferable to a different person, even though such person shall be the successor to or the assignee of the licensee.

disposed of by private sale or junked. The town treasurer shall pay from the proceeds of sale the cost of removal, storage, investigation as to ownership and liens and notice of sale, and the balance of such funds shall be held by him for the owner and paid to the owner upon satisfactory proof of ownership.

If no claim has been made by the owner for the proceeds of such sale, after the payment of the above-mentioned cost of fifty dollars, the funds may be deposited to the general fund or any special fund of the town. Any such owner shall be entitled to apply to the town within three years from the date of such sale, and if timely application is made therefor, the town shall pay the same to the owner without interest or other charges. No claim shall be made nor shall any suit, action or proceeding be instituted for the recovery of such funds after three years from the date of such sale. (8-4-64)

The town manager shall have the power to enter into contracts with the owner or operator of garages or places for the removal or storage of vehicles referred to in the preceding section. The town manager may classify vehicles with reference to parking and may designate the time, place and manner such vehicles may be allowed to park on town streets and parking lots, and may make and enforce such additional rules and regulations as parking conditions may require. When any parking regulation is established, pursuant to this paragraph, the town manager may cause to be erected appropriate signs or markers so that an ordinarily observant person, who may be affected by such regulation, will be aware of such regulation.

The town manager may cause appropriate signs and markings to be erected, placed and maintained, designating residence and business districts, railway crossings and such other signs and markings upon the sidewalks and streets as may be deemed necessary to carry out the provisions of this chapter. For the purposes of this section, "parked on the streets of Glasgow," will be interpreted to mean that the vehicle, as specified above, will not be parked within two feet of the traveled portion of the street in question. The term "gross weight," as used in this section means the aggregate weight of a vehicle or combination of vehicles and its load, which is the same as that defined in § 48.1-161, Code of Virginia, 1950, as amended. The term, "streets of Glasgow," will be interpreted to mean those streets, or portions of streets, which are situated in those portions of the town which are zoned residential; however, no vehicle as described above may occupy more than one parking space in any designated parking area in the areas of the town zoned commercial or business, except while loading or unloading, if the parking in such spaces would, in any way, interfere with the normal flow of traffic through the parking area or prevent customers, patrons, patients or employees of any commercial enterprise in the town from parking therein. The parking of campers, motor homes and/or house trailers which may or may not have a gross weight of ten thousand pounds or more is covered elsewhere in this Code.

Nothing in this section will prevent the parking of any vehicle on the owner's private property so long as the parking of the vehicle is in accordance with this or other provisions of the Town Code. (1-3-83. § 1; 2-7-83.)

Sec. 10-41. Parking vehicles without state license on streets.

It shall be unlawful to park any vehicle having no current state license on any street. (4-6-60, § 1~)

Sec. 10-42. Angle parking.

Notwithstanding any of the provisions of this chapter, the town manager may, when in his discretion the public interest so requires, provide for angle parking on any street or portion thereof; provided, that such streets are marked so as to apprise an ordinarily observant person of the regulation. (4-6-60, § 1.)

Whenever signs or markings have been erected on any lot or lot area, contiguous or adjacent to a street, thoroughfare or alley indicating that no vehicles are permitted to stand or park thereon, it shall be unlawful for any person to drive a vehicle across any curb or lot line or over any driveway from a street or alley into such lot or area for the purpose of standing or parking such vehicle, or for any person to stop, stand or park any vehicle in such lot or lot area. (4-6-60, § 1.)

Sec. 10-45. Parking for certain purposes prohibited.

It shall be unlawful for any person to park or place any automobile, truck, trailer or other vehicle upon or in any street, alley or parkway for the purpose of selling or offering the same for sale or rent. No sign or lettering shall be attached or placed upon any automobile, truck, trailer or other vehicle parked in or upon any public street, alley or parkway of the town indicating that such vehicle is offered for sale or for rent. It shall also be unlawful to park any vehicle upon any street in a business district from which any merchandise is being sold.

It shall be unlawful to stop a vehicle at any time upon the highway for the purpose of advertising any article of any kind, or to display thereupon advertisements of any article or advertisement for the sale of the vehicle itself. (4-6-60, § 1.)

Sec. 10-46. Liability for damage to vehicles parked in free parking lot.

No action shall lie or proceeding be brought against any person conducting any business and maintaining a parking lot, at which free parking accommodations are provided for customers or employees of such business, when a motor vehicle is parked in such parking lot, for the total or partial loss of such motor vehicle by reason of theft or damage by any person other than an employee or for the total or partial loss of property left in such motor vehicle by reason of theft or damage by any person other than an employee.

As used in this section, "free parking accommodations" means parking accommodations for which no specific charge is made and the patronage of the business by customers and the performance of the regular services for the business by employees shall not constitute the payment of any consideration for the use of the parking accommodations.

Nothing in this section shall relieve any person of liability resulting from his own wrongdoing. (4-6-60, § 1.)

Sec. 10-47. Parking or storing abandoned motor vehicles.

It shall be unlawful for any person, firm or corporation to keep, except within a fully enclosed building or structure or otherwise shielded or screened from view, on any property within the Town, any motor vehicle, trailer, or semitrailer, or part thereof, as such are defined in section 46.2-100 of the Code of Virginia, which is inoperative.

As used in this section, the term "inoperable motor vehicle" shall mean any motor vehicle which is not in operating condition; or which, for a period of 60 days or longer, has been partially or totally disassembled by the removal of tires and wheels, the engine or other essential parts required for operation of the vehicle; or for which there is no valid license plate or inspection sticker. Notwithstanding the foregoing, an antique motor vehicle (as defined by Section 46.2-100 of the Code of Virginia) is not required to have an inspection sticker if such vehicle is not used for general transportation and is only used (a) for participation in club activities, exhibits, tours, parades and similar events, and (b) on the public streets and highways of the Commonwealth and municipalities for the purpose of testing their operation, obtaining repairs or maintenance and transportation to and from the activities set forth in (a) above.

However, the provisions of this section shall not apply to a licensed business which is regularly engaged in business as an automobile dealer, salvage dealer or scrap processor.

As used in this section, shielded or screened from view means completely precluding visibility of the subject vehicle from all adjacent streets, alleys and properties, by placing the vehicle within an area completely enclosed either by a solid, rigid, opaque fence composed of standard fencing materials or by a landscaped arrangement of non-deciduous trees, sufficient in height, spacing, density and circumference to

ensure precluding visibility of the subject vehicle from all adjacent streets, alleys and properties, or by use of an opaque car cover appropriate for the vehicle being covered.

The owners of property upon which such inoperative vehicle rests, shall with 15 business days notice to do so given in writing by the Town Manager or his designee and served in person or mailed to the post office address shown for such owner in the Town tax records, remove therefrom any such inoperable motor vehicles, trailers or semitrailers that are not kept within a fully enclosed building or structure or otherwise shielded from view as defined in this section. In the event such inoperable motor vehicles, trailers or semitrailers are not so removed after the 15 business day notice set forth above, the Town may, through its own agents and/or employees, remove such vehicles, trailers or semitrailers. Any such vehicles, trailers or semitrailers removed by the Town after such notice may be disposed of by the Town after giving written notice to the registered owner of such vehicles, trailers or semitrailers. Such additional notice shall be mailed to the address of the owner of such vehicle shown on the records of the Department of Motor Vehicles. Such additional notice shall advise the owner that, unless the vehicle is claimed by the owner, and all costs of removal and/or storage is paid or reimbursed to the Town within 15 days, the same will be disposed of. All costs of any such removal, storage and/or disposal shall be chargeable to the owner of such vehicle or the owner of the premises upon which it was stored prior to removal. The Town by use of a debt warrant or other similar method may collect such costs. Every cost authorized hereunder with which the owner of the premises has been assessed shall constitute a lien against the property from which the vehicle was removed and such lien shall continue until actual payment of such costs has been paid to the Town.

A first violation of this ordinance will cause a letter to be sent from the Town Manager or Town Attorney to forthwith comply with the sections of this ordinance. Failure to so comply or a second offense will result in the assessment of a one hundred dollar (\$100) fine. A third or more offense will result in a two hundred and fifty dollar (\$250) fine.

Such suspension shall continue until such time as the person has filed the accident report as required or has given correctly the information requested.

§15-1-1. Purpose.

The purpose of this ordinance is to establish certain subdivision standards and procedures for Glasgow, Virginia, and such of its environs as come under the jurisdiction of the governing body as provided for by the 1950 Code of Virginia, as amended.

These are part of a long-range plan to guide and facilitate the orderly beneficial growth of the community, and to promote the public health, safety convenience, comfort, prosperity and general welfare. More specifically, the purposes of these standards and procedures are to provide a guide for the change that occurs when lands and acreage become urban in character as a result of development for residential, business, or industrial purposes, to provide assurance that the purchasers of lots are buying a commodity that is suitable for development and use; and to make possible the provision of public services in a safe, adequate and efficient manner. Subdivided land sooner or later becomes a public responsibility in that roads and streets must be maintained and numerous public services customary to urban areas must be provided. This ordinance assists the community in meeting these responsibilities.

The right of way of any major highway or street projected across any railroad, limited access highway or expressway shall be of adequate width to provide for the cuts or fills required for any future separation of grades.

(3) Approach Angle - Major streets shall approach major or minor streets at an angle of not less than eighty (80) degrees, unless the agent, upon recommendation of the city engineer, shall approve a lesser angle of approach for reasons of contour, terrain or matching of existing patterns.

Sec. 18-43.2. Compliance and Liability.

(a) No land shall hereafter be developed and no structure shall be located, relocated, constructed, reconstructed, enlarged, or structurally altered except in full compliance with the terms and provisions of this ordinance and any other applicable ordinances and regulations which apply to uses within the jurisdiction of this ordinance.

(b) The degree of flood protection sought by the provisions of this ordinance is considered reasonable for regulatory purposes and is based on acceptable engineering methods of study. Larger floods may occur on rare occasions. Flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris. This ordinance does not imply that areas outside the floodplain districts, or that land uses permitted within such districts will be free from flooding or flood damages.

(c) This ordinance shall not create liability on the part of the Town of Glasgow or any officer or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made thereunder.

Sec. 18-43.3. Abrogation and Greater Restrictions.

This ordinance supersedes any ordinance currently in effect in flood-prone areas. However, any underlying ordinance shall remain in full force and effect to the extent that its provisions are more restrictive than this ordinance.

Sec. 18-43.4. Severability.

If any section, subsection, paragraph, sentence, clause, or phrase of this ordinance shall be declared invalid for any reason whatever, such decision shall not affect the remaining portions of this ordinance. The remaining portions shall remain in full force and effect; and for this purpose, the provisions of this ordinance are hereby declared to be severable.

For the purposes of the definition, “substantial improvement” is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include either

(a) any project for improvement of a structure to comply with existing state or local health, sanitary or safety code specifications which are solely necessary to assure safe living conditions or

(b) any alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.

(1) The Floodway shall be that portion of the Flood Plain District delineated as such on the Flood Boundary and Floodway Map for the Town of Glasgow.

(2) The basis for the outermost boundary of the Flood Plain District shall be the one hundred year flood elevations shown on the Flood Insurance Rate Map for the Town of Glasgow.

(b) The delineation of the Flood Plain District may be revised and amended and modified by the town council in compliance with the National Flood Insurance Program when:

(1) there are changes through natural or other causes;

(2) changes are indicated by future detailed hydrologic and hydraulic studies.

(c) Should a dispute concerning the district boundary arise, an initial determination shall be made by the Building Permit Officer. Any party aggrieved by this decision may appeal to the town council. The burden of proof shall be on the appellant.

(2) no new construction, substantial improvements, or other developments (including fill) shall be permitted in the floodway.

(b) Whenever a developer intends to alter or relocate a watercourse within the Flood Plain District, the developer shall notify, in writing, by certified mail, all adjacent communities and the Virginia Water Control Board of all such intended activities prior to any alteration or relocation, and shall submit copies of such notification to the Federal Insurance Administrator. The developer shall also assure the town council, in writing, that the flood carrying capacity within the altered or relocated portion of the watercourse in question will be maintained.

Sec. 18-43.8 Criteria for building permit; site plan approval.

(a) Building Permit Criteria.

Building permits are required in order to determine whether all new construction or substantial improvements are:

(1) designed (modified) and adequately anchored to prevent flotation, collapse, or lateral movement

(2) constructed with materials and utility equipment resistant to flood damage

(3) constructed by methods and practices that minimize flood damage.

The basic format of the Building Permit shall include the following:

- (1) Name and address of applicant
- (2) Name and address of owner of land on which proposed construction is to occur
- (3) Name and address of contractor
- (4) Site location
- (5) Brief description of proposed work and estimated cost
- (6) A plan of the site showing the exact size and location of the

Depending on the type of structure involved, the following information shall also be included in the building permit for work within the Flood Plain District:

For structures to be elevated to the Base Flood Elevation

- (1) a plan showing the size of the proposed structures and its relation to the lot where it is to be constructed
- (2) a determination of elevations of the existing ground, proposed finished ground and lowest floors certified by a Registered Professional Engineer, Surveyor, or Architect
- (3) plans showing the method of elevating the proposed structures, including details of proposed fills, pile structures, retaining walls, foundations, erosion protection measures, etc. When required by the Building Inspector, these plans shall be prepared by a Registered Professional Engineer or Architect.
- (4) plans showing the methods used to protect utilities (including sewer, water, telephone, electric, gas, etc.) from flooding to the Base Flood Elevation at the building site.

For structures to be floodproofed to the Base Flood Elevation (nonresidential structures only):

- (1) plans showing details of all flood-proofing measures, prepared by a Registered Professional Engineer or Architect, and showing the size of the proposed structure and its relation to the lot where it is to be constructed.
- (2) a determination of elevations of existing ground, proposed finished ground, lowest floors, and flood-proofing limits, certified by a Registered Professional Engineer, Surveyor, or Architect.
- (3) a certificate prepared by the Registered Professional Engineer or Architect who prepared the plans in (1) above, that the structure in question, together with attendant utility and sanitary facilities is designed so that:
 - (aa) below the base Flood Elevation the structure is watertight with walls substantially impermeable to the passage of water, and
 - (bb) the structure will withstand the hydrostatic, hydrodynamic buoyant, impact, and other forces resulting from the flood depths, velocities, pressures, and other factors associated with the Base Flood.

(b) Minimum Floodproofing Standards.

In order to prevent excessive damage to buildings and structures, the following restrictions shall apply to all new construction and to construction of substantial improvements of existing structures occurring in the Flood Plain District:

(1) Basements and lowest floors:

(aa) All new construction and substantial improvements of residential structures must have the lowest floor (including basement) elevated to the Base Flood Elevation.

(bb) All new construction and substantial improvements of non-residential structures must have the lowest floor (including basement) elevated to the Base Flood Elevation; or, together with attendant utility and sanitary facilities, be designed so that below the Base Flood Elevation the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydro-dynamic loads and effects of buoyancy.

(cc) All manufactured homes to be placed or substantially improved within the floodplain district shall be placed on a permanent foundation and elevated and anchored in accordance with the Virginia Uniform Statewide Building Code.

(2) Fill:

(aa) Fill shall extend beyond a structure for a sufficient distance to provide acceptable access. For residential structures, fill shall extend laterally fifteen feet beyond the building line from all points. For non-residential structures, fill shall be placed to provide access acceptable for intended use. At-grade access, with fill extending laterally fifteen feet beyond the building line, shall be provided to a minimum of twenty-five percent of the perimeter of a non-residential structure.

(bb) Fill shall consist of soil or rock materials only. Sanitary land fills shall not be permitted.

(cc) Fill material shall be compacted to provide the necessary stability and resistance to erosion, scouring, or settling.

(dd) Fill slopes shall be no steeper than one vertical or two horizontal, unless substantiating data justifying steeper slopes are submitted to and approved by the Building Permit Officer.

(ee) Fill shall be used only to the extent to which it does not adversely affect adjacent properties.

(3) Placement of buildings and structures:

(aa) All buildings and structures shall be constructed and placed on the lot so as to offer the minimum obstruction to the flow of water and shall be designed to have a minimum obstruction effect upon the flow and height of flood water.

(bb) The following shall not be placed or caused to be placed in the designated Flood Plain:

fences, except two-wire fences, other matter which may impede, retard or change the direction of the flow of water or that is placed where the natural flow

of the stream or flood waters would carry the same downstream to the damage or detriment of either public or private property adjacent to the flood plain.

(4) Anchoring:

(aa) All buildings and structures shall be firmly anchored in accordance with accepted engineering practices to prevent flotation, collapse, and lateral movement, thus reducing the threat to life and property, and decreasing the possibility of the blockage of bridge openings and other restricted sections of the watercourse.

(bb) All air ducts, large pipes and storage tanks located at or below the Base Flood Elevation shall be firmly anchored to resist flotation.

(5) Storage:

No new construction which stores materials that are buoyant, flammable, explosive, or in times of flooding could be injurious to human, animal or plant life, shall be stored below Base Flood Elevation.

(c) Site Plan Criteria.

The owner or developer of any proposed subdivision, or other development shall submit a site plan to the Building Permit Officer which includes the following information:

- (1) Name of engineer, surveyor, or other qualified person responsible for providing the information required in this section.
- (2) A map showing the location of the proposed subdivision and/or development with respect to the municipality's flood-prone areas, proposed lots and sites, fills, flood or erosion protective facilities and areas subject to special deed restriction. In addition, it is required that all subdivision proposals and other proposed new developments greater than fifty lots or five acres, whichever is the lesser, shall include base flood elevation data.
- (3) Where the subdivision and/or development lies partially or completely in the flood-prone areas, the plan map shall include detailed information giving the location and elevation of proposed roads, public utilities and building sites. All such maps shall also show contours at intervals of two or five feet depending upon the slope of the land and identify accurately the boundaries of the flood-prone areas.

(d) Utility and Facility Requirements.

For all proposed subdivisions, or other development, the Building Permit Officer shall require:

- (1) All new or replacement water systems located in the Flood Plain District, whether public or private, shall be flood-proofed to the Base Flood Elevation.
- (2) All new or replacement sanitary disposal systems located within the Flood Plain District, whether public or private, shall be floor-proofed to the Base Flood Elevation.
- (3) All other new or replacement public and/or private utilities and facilities shall be elevated or flood-proofed to the Base Flood Elevation.

(e) Drainage.

Adequate drainage shall be provided to reduce exposure to flood hazards.

Sec. 18-43.9 Administration.

(a) Building Permits and Site Plan Approvals Required.

(1) It shall be unlawful for any person, partnership, business or corporation to undertake, or cause to be undertaken, the new construction, substantial improvement, or relocation of any structure within the Flood Plain District unless the necessary permits have been obtained from the Building Permit Officer. In addition, where land is to be subdivided or otherwise developed, a site plan must be submitted to and approved by the Building Permit Officer prior to any development.

(b) Approval of Permits and Plans.

(1) All permits and plans shall be approved only after it has been determined that the proposed work to be undertaken will be in conformance with the requirements of this and all other applicable codes and ordinances.

(2) The Building Permit Officer shall require copies of all necessary permits, from those governmental agencies from which approval is required by federal and state law.

(3) A record of all information supplied to the Building Permit Officer shall be kept on file by the Building Permit Officer.

(c) Application Procedures.

Application for a building permit and site plan approvals shall be made, in writing, to the Building Permit Officer, and shall include all information stipulated under Sec. 18-43.8 of this Article.

The administration and enforcement of Ibis Article shall be conducted in conformance with the Virginia Uniform Statewide Building Code.

Sec. 18-43.10 Appeals.

(a) Whenever any person is aggrieved by a decision of the Building Permit Officer with respect to the provisions of this ordinance, it is the right of that person to appeal to the Board of Zoning Appeals. Such appeal must be filed, in writing, within thirty days after the determination by the Zoning Officer. Upon receipt of such appeal, the Board of Zoning Appeals shall set a time and place not less than ten nor more than thirty days for the purpose of hearing the appeal. Notice of the time and place of the hearing of the appeal shall be given to all parties at which time they may appear and be heard.

(b) Appeals review criteria.

All decisions on appeals shall adhere to the following criteria:

(1) A decision may be issued by the town council for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the Base Flood Elevation in conformance with the procedures of paragraphs 3, 4, 5 and 6 of this section.

(2) Affirmative decisions shall only be issued by the town council upon (aa) a showing good and sufficient cause, (bb) a determination that failure to grant the appeal would result in exceptional hardship to the applicant. and (cc) a determination that the granting of an appeal will not result in increased floor heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local laws or ordinances.

(3) Affirmative decisions shall only be issued upon determination that it is the minimum necessary, considering the flood hazard, to afford relief.

(4) The town council shall notify the applicant in writing over the signature of an official thereof that (aa) the issuance of a decision to allow construction of structure below the Base Flood Elevation will result in increased premium rates for flood insurance, (bb) such construction below the Base Flood Elevation increases the risk to life and property.

(5) The town council shall (aa) maintain a record of all decisions, including justification for their issuance, and (bb) report such decisions issued in its annual report submitted to the Federal Insurance Administrator.

(6) An affirmative decision shall not be issued that would permit any development in any floodway that would result in any increase in the Base Flood Elevation. (1-1-78, § 1; 8-2-82)

Article VI. Nonconforming Uses.

Sec. 18-44. Continuation.

If at the time of enactment of this chapter any legal activity is being pursued or any lot or structure legally utilized in a manner or for a purpose which does not conform to the provisions of this chapter, such manner of use or purpose may be continued as provided in this article; except that advertising structures that become nonconforming because of a rezoning have twenty-four months within which to relocate in a permitted area.

If any change in title of possession or renewal of a lease of any such lot or structure occurs, the existing use may be continued.

If any nonconforming use, structure or activity is discontinued for a period exceeding two years after the enactment of this chapter, it shall be deemed abandoned, and any subsequent use shall conform to the requirements of this chapter.

Temporary seasonal nonconforming uses that have been in continual operation for a period of two years or more prior to the effective date of this chapter shall be excluded. (3-11-69, § 6-1).

Sec. 18-45. Permits.

Zoning permits and certificates of occupancy shall be issued to all nonconforming uses.

The construction or use of a nonconforming building or land area for which a permit was issued legally prior to the adoption of this chapter may proceed; provided, that such building is completed within one year or such use of land established within thirty days after the effective date of this chapter. (3-11-69, § 6-2).

Sec. 18-46. Repairs and maintenance.

On any building devoted in whole or in part to any nonconforming use, work may be done in any period of twelve consecutive months on ordinary repairs or on repair or replacement of nonbearing walls, fixtures, wiring or plumbing to an extent not exceeding ten percent of the current replacement value of the structure; provided, that the cubic content of the structure as it existed at the time of the passage or amendment of this chapter shall not be increased.

Nothing in this section shall be deemed to prevent the strengthening or restoring to safe condition of any structure or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official. (3-11-69, § 6-3).

Sec. 18-47. Changes in district boundaries.

Whenever the boundaries of a district are changed, any uses of land or buildings which become nonconforming as a result of such change shall become subject to the provisions of this article. (3-11-69, § 6-5).

Sec. 18-48. Expansion or enlargement.

A nonconforming structure to be extended or enlarged shall conform with the provisions of this article. A nonconforming activity may be extended throughout any part of a structure which was arranged or designed for such activity at the time of enactment of this chapter. (3-11-69, § 6-5).

Sec. 18-49. Lots of record.

Any lot of record at the time of the adoption of this chapter which is less in area or width than the minimum required by this chapter may be used; provided, that a variance is obtained from the board of zoning appeals. Such variance shall be granted only if it is shown that unnecessary and undue hardships would result if it is not granted. (3-11-69, § 6-6).

Sec. 18-50. Restoration and replacement; travel trailers not to be used for permanent occupancy.

If a nonconforming activity is destroyed or damaged in any manner to the extent that the cost of restoration to its condition before the occurrence shall exceed fifty percent of the cost of reconstructing the entire activity or structure, it shall be restored only if such use complies with the requirements of this chapter.

If a nonconforming structure is destroyed or damaged in any manner to the extent that the cost of restoration to its condition before the occurrence shall exceed seventy-five percent of the cost of reconstructing the entire structure, it shall be restored only if it complies with the requirements of this chapter.

Where a conforming structure devoted to a nonconforming activity is damaged less than fifty percent of the cost of reconstructing the entire structure or where a nonconforming structure is damaged less than seventy-five percent of the cost of reconstructing the entire structure, either may be repaired or restored; provided, that any such repair or restoration is started within twelve months and completed within eighteen months from the date of partial destruction.

The cost of land or any factors other than the cost of the structure shall be excluded in the determination of cost of restoration for any structure or activity devoted to a nonconforming use.

Nonconforming mobile home activity is deemed destroyed if such home is moved.

Travel trailers cannot be used for permanent occupancy. (3-11-69), § 6-7).

Article VII. Board of Zoning Appeals.

Sec. 18-51. Appointment; membership; term; compensation; vacancies; removal of officers; chairman.

A board of zoning appeals consisting of five members, one of whom shall be an active member of the planning commission, shall be appointed by the circuit court of the county and shall serve without pay, other than for traveling expenses, for a term of five years; except, that of the first five members appointed, one shall serve for five years, one for four years, one for three years, one for two years and one for one year. Appointments for vacancies occurring otherwise than by expiration of term shall in all cases be for the un-expired term.

Any member of the board shall be disqualified to act upon a matter before the board with respect to property in which such member has an interest, and members may be removed for cause by the circuit court of the county upon written charges and after a public hearing.

The board shall choose annually its own chairman and vice chairman who shall act in the absence of the chairman. (3-11-69, § 8-1.)

Sec. 18-52. Powers and duties.

The board of zoning appeals shall have the following powers and duties:

(a) To hear and decide appeals from any order, requirement, decision or determination made by an administrative officer in the administration or enforcement of this chapter or of any ordinance adopted pursuant thereto.

(b) To authorize upon appeal in specific cases such variance from the terms of this chapter as will not be contrary to the public interest when, owing to special conditions, a literal enforcement of the provisions will result in unnecessary hardship; provided, that the spirit of this chapter shall be observed and substantial justice done as follows.

(1) When a property owner can show that his property was acquired in good faith and where, by reason of the exceptional narrowness, shallowness, size or shape of a specific piece of property at the time of the effective date of this chapter or by reason of exceptional topographic conditions or other extraordinary situation or condition of such piece of property or of the use or development of property immediately adjacent thereto, the strict application of the terms of the chapter would effectively prohibit or unreasonably restrict the use of the property or where the board is satisfied, upon the evidence heard by it, that the granting of such variance will alleviate a clearly demonstrable hardship approaching confiscation, as distinguished from a special privilege or convenience sought by the applicant,

(2) No such variance shall be authorized by the board unless it finds that the strict application of the chapter would produce undue hardship, that such hardship is not shared generally by other properties in the same zoning district and the same vicinity, that the authorization of such variance will not be of substantial detriment to adjacent property and that the character of the district will not be changed by the granting of the variance.

(3) No such variance shall be authorized except after notice and hearing as required by section 15.1-431, Code of Virginia, 1950, as amended.

(4) No variance shall be authorized unless the board finds that the condition or situation of the property concerned or the intended use of the property is not of so general or recurring a nature as to make reasonably practicable the formulation of a general

regulation to be adopted as an amendment to the chapter.

(5) In authorizing a variance the board may impose such conditions regarding the location, character and other features of the proposed structure for use as it may deem necessary in the public interest and may require a guarantee or bond to insure that the conditions imposed are being and will continue to be complied with. (3-11-69, § 8-2.)

Sec. 18-53. Rules and regulations.

The board of zoning appeals shall adopt rules and regulations as it may consider necessary including, but not limited to, the following:

- (a) The meeting of the board shall be held at the call of its chairman or at such times as a quorum of the board may determine.
- (b) The chairman or in his absence the acting chairman may administer oaths and compel the attendance of witnesses.
- (c) The board shall keep minutes of its proceedings showing the vote of each member upon each question, or if absent or failing to vote indicating such fact. It shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the board and shall be a public record.
- (d) All meetings of the board shall be open to the public.
- (e) A quorum shall consist of at least three members.
- (f) A favorable vote of three members of the board shall be necessary to reverse any order, requirement, decision or determination of any administrative official or to decide in favor of the applicant on any matter upon which the board is required to pass. (3-11-69, § 8-3)

Sec. 18-54. Appeal -- Procedure

An appeal to the board may be taken by any person aggrieved or by any officer, department, board or bureau of the county or town affected by any decision of the zoning administrator. Such appeal shall be taken within thirty days after the decision appealed from by filing with the zoning administrator and with the board a notice of appeal specifying the grounds thereof. The zoning administrator shall forthwith transmit to the board all the papers constituting the record upon which the action appealed was taken. An appeal shall stay all proceedings in furtherance of the action appealed from unless the zoning administrator certifies to the board that, by reason of facts stated in the certificate, a stay would in his opinion cause imminent peril to life or property, in which case proceedings shall not be stayed otherwise than by a restraining order granted by the board or by a court of record on application and on notice to the zoning administrator and for good cause shown.

Appeals shall be mailed to the board of zoning appeals in care of the zoning administrator, and a copy of such appeal shall be mailed to the secretary of the planning commission. A third copy should be mailed to the individual, official, department or agency concerned.

Appeals requiring an advertised public hearing shall be accompanied by a certified check for twenty dollars payable to the town treasurer (3-11-69, §§ 8-4, 8-5.)

Sec. 18-55. Same -- Hearing.

The board shall fix a reasonable time for the hearing of an application or appeal, shall give public notice thereof as well as due notice to the parties in interest and shall decide the same within sixty days. In exercising its powers, the board may reverse or affirm, wholly or partly, or may modify the order,

requirement, decision or determination appealed from. (3-11-69, § 8-6.)

Sec. 18-56. Same -- From decision of board.

Any person aggrieved by any decision of the board of zoning appeals or any taxpayer, officer, department, board or bureau may present to the circuit court of the county a petition specifying the grounds on which aggrieved within thirty days after filing of such decision in the office of the board.

Upon the presentation of such petition, the court shall allow a writ of certiorari to review the decision of the board of zoning appeals and shall prescribe therein the time within which a return thereto must be made and served upon the realtor's attorney, which shall not be less than ten days and may be extended by the court. The allowance of the writ shall not stay proceedings upon the decision appealed from, but the court may, on application, on notice to the board and on due cause shown, grant a restraining order.

The board of zoning appeals shall not be required to return the original papers acted upon by it, but shall return certified or sworn copies thereof or of such portions thereof as may be called for by such writ. The return shall concisely set forth such other facts as may be pertinent and such material to show the grounds of the decision appealed from and shall be verified.

If, upon the hearing, it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a commissioner to take such evidence as it may direct and report the same to the court with his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made. The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review.

Costs shall not be allowed against the board unless it shall appear to the court that it acted in bad faith or with malice in making the decision appealed from. (3-11-69, § 8-7.)

Sec. 18-57. House Numbering Ordinance.

Structure Numbering

The Town of Glasgow maintains a house numbering system based upon the location of the main structure.

House numbers increase along east/west streets as one travels west, and along north/south streets as one travels north.

Even house numbers are on the north side of east/west streets and odd on the south. Even number houses are on the east side of north/south streets and odd on the west.

The Town Manager will assign house numbers for all new main structures at the time the building permit endorsement is issued.

Address Number Placement

It shall be the property owner's responsibility to place address numbers on the structure.

Address numbers must be conspicuously placed on the structure so that the number is clearly visible from the road. In cases where the structure is more than fifty (50) feet from the road, or not visible from the road, the number must be placed near the walk, driveway or common entrance to the structure, or upon the mailbox, gatepost, fence, address placard or other appropriate place so as to be clearly visible from the road to guide emergency responders to the structure.

If primary address numbers are to be placed on a mailbox, or mailbox post on the road, then the mailbox must be immediately adjacent to or opposite the entrance to the driveway.

Address numbers shall be no less than 3" (inches) in height and should be placed on a contrasting color for high visibility. Address numbers for business shall be no less than 4" (inches) in height. In all cases numbers should be reflective with a contrasting background.

Manufactured home parks shall have similar styles of address numbers placed in a similar location on the individual homes. Example: If all homes are set perpendicular to the street or parking lot, then all address numbers shall be placed on the end of the home at a uniform height above the ground.

Trees and brush shall be cleared from obstructing address numbers.

Owners and/or inhabitants of existing structures are required to post their assigned numbers using these guidelines.

Questions regarding proper address number placement should be addressed to the Town Manager.

Residents shall have six (6) months from the date of adoption of this ordinance to comply with the address number placement requirements.

Enforcement

Persons failing to post address numbers shall be subject to penalties as described in Section 18-13 of this Code.

Adopted 12/5/2005

Sec. 18-58. Wireless Communication Towers.

Wireless Communication Towers and related facilities may be permitted in any zone upon the recommendation of the Planning Commission and approval of Town Council following a public hearing advertised in accordance with state law. In addition, placement of wireless communication towers shall require the issuance of a Conditional Use Permit granted by Town Council with such provisions as it deems appropriate for the location and use considered.

Existing facilities shall have 60 days to meet these requirements after approval of permit application. Each such manhole or inspection chamber shall be of such design and construction which will minimize infiltration by ground and surface waters and be filtered if required by the Town for prevention of nuisance conditions by screens with sufficient fineness to prevent the entrance of objectionable slugs of solids to the sanitary sewer system. Manholes or inspection chambers shall be so maintained by the person discharging wastes so that any authorized representative or employee of the Town may readily and safely measure the volume and obtain samples of the flow at all times. Plans for construction of the control manholes, or inspection chambers, including such flow measuring devices as may be required, shall be included with the Industrial Sewer Connection Application.
- (D) Sampling of the effluent of waste discharges may be accomplished manually or by use of mechanical equipment to obtain a composite sample which would be representative of the total effluent. Samples shall be taken at six (6) months intervals to establish the B.o.D. and suspended solids of the industrial waste for billing purposes, or at such intervals as determined by the Town as necessary to maintain a control over the discharges from the Permittee. The method used in the examination of all industrial wastes to determine H.O.D., suspended solids, and prohibited wastes shall be set as forth in "standard Methods".

SECTION 12 - BILLING

- (A) Industrial waste surcharge provided for in the Ordinance shall be included. as a separate item on the regular bill for water and sewer charges and shall be paid monthly in accordance with the existing practices. WHEREAS, political subdivisions of the Commonwealth of Virginia are authorized under Virginia law to exercise jointly powers that they otherwise are authorized to exercise independently, and the terms and conditions of such authorization are currently set forth in Sections 15.2-1300, et seq. of the Virginia Code (the “Joint Powers Act”); and

WHEREAS, the Virginia Public Procurement Act (the “Procurement Act”) exempts from its competitive sealed bidding and competitive negotiation requirements (the “Requirements”) the joint procurement by public bodies, utilizing competitive principles, of electric utility services purchased through member associations under the conditions set forth in the Procurement Act; and
